*“With over 25 years experience in the IT industry, I setup ISAMS to provide high quality and good value services for computer users in Northamptonshire – ISAMS now has hundreds of residential and local small businesses as clients – see the website for references. ISAMS are often away from the office on computer jobs, so please do leave a message rather than going to a non-local firm. All messages are checked remotely and responded to promptly – Thanks”*

*Rhod Davies – Owner*

***Cut this out and keep by your computer – just in case!!!***
